

Assembly instructions

For mounting the studio desk, use the supplied screws and washers. Use a soft padding to avoid damage to the components.

1. Screw the support bracket for the lower table top with each one metric screw at the desired height on both side panels.
2. Screw the lower single strut and the central strut to the keyboard shelf brackets with each two metric screws between the two side panels.
3. Screw the two brackets for the keyboard shelf with each two metric screws properly orientated on the central strut.
4. Screw the rack frame with four metric screws right and left between the side panels.
5. Screw the support for the upper table-top between the side panels.

6. Screw the keyboard shelf on the two fixing brackets.

7. Screw the bigger lower table top on the two support brackets.

8. Screw the smaller upper table top onto the upper support.

Technical specifications

- Materials used:
 - steel sheet (side panels, struts)
 - wood (table top)
- Dimensions (W × H × D):
1960 × 1270 × 1070 mm
- Weight: 40 kg

Ensure that plastic bags, packaging, etc. are disposed of properly and are not within reach of babies and young children. Choking hazard!

Because of its heaviness, at least two people are always required for the transport and installation of the studio desk.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are fed to a recovery. Please follow the notes and markings on the packaging.
