

# MA100

- ✓ Drivers 1 x 10" woofer and 1 x 3" tweeter
- ✓ Type self powered speaker,  
100 W (rms) / 400 W (peak)
- ✓ Crossover 3-way
- ✓ SPL 110 dB max
- ✓ Frequency range 70 Hz - 17 kHz  
80 Hz - 18 kHz
- ✓ Dispersion H: 90° / V: 80°
- ✓ Connectors XLR in + line out, speakon
- ✓ Cabinet plywood, covered with carpet
- ✓ Dimensions 361 x 325 x 480 mm
- ✓ Weight 15 kg

This device is meant to be used as a passive loudspeaker within specifications given here. Use the device only as described here. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

This device may be used only by persons with sufficient physical, sensorial, and intellectual abilities and having corresponding knowledge and experience. Other persons may use this device only if they are supervised or instructed by a person who is responsible for their safety. Children must be supervised to ensure that they do not play with the device.

Always use proper ready-made insulated mains cabling (power cord) with a protective contact

plug. Do not modify the mains cable or the plug. Failure to do so could result in electric shock/death or fire. Within the device there are areas where high voltages may be present. Never remove any covers. There are no user-serviceable parts inside.

Before connecting the device, ensure that the input voltage (AC outlet) matches the voltage rating of the device and that the AC outlet is protected by a residual current circuit breaker. Failure to do so could result in damage to the device and possibly injure the user.

Unplug the device before electrical storms occur and when it is unused for long periods of time to reduce the risk of electric shock or fire.

The device can produce volume levels that may cause temporary or permanent hearing impairment. Over an extended period of time, even levels that seem to be uncritical can cause hearing damage. Decrease the volume level immediately if you experience ringing in your ears or hearing impairment. If this is not possible, keep a greater distance or use sufficient ear protectors.

This device has been designed for indoor use only. To prevent damage, never expose the device to any liquid or moisture. Avoid direct sunlight, heavy dirt, and strong vibrations.

When mounting the device onto a stand, ensure that the stand is in a safe and stable position and that the weight of the device does not exceed the maximum permissible load capacity of the stand.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed and are not in the reach of babies and young children. Choking hazard! Do not just dispose these materials with your normal household waste, but make sure that they are fed to a recovery. Please follow the notes and markings on the packaging.

This device is subject to the European directive 2002/96/EC. Do not dispose the device with your normal household waste. Dispose this device through an approved waste disposal firm or through your local waste facility. When discarding the device, comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
