

Features

- Length: 75 m
- 2 × RJ 45 plugs with detachable sleeve
- Can be used in D-size or any other sockets
- Extremely robust cable
- Cable colour: blue
- AWG24
- Outer diameter: 7.5 mm
- 4 wire pairs
- F/UTP
- Temperature range: -20 °C – + 60 °C
- Impedance: 100 Ω

With this extremely robust F/UTP network cable, computer and network-compatible devices can be connected to create a reliable, high-performance network. Special features make it ideal for mobile use: The distance of the twisted wires does not change even after a long useful life, thereby effectively ensuring even transfer of digital signal packets. Also the distance of the wire pairs to each other will be fixed efficiently, which keeps cross-talk between the wire pairs low and stable. The solid structure makes the cable resistant to damage from mechanical impact or rolling up.

This cable is intended to be used for digital data transmission between devices with RJ 45-format connection sockets. Any other use or use under other operating conditions is considered to be improper and may result in personal injury or property damage. No liability will be assumed for damages resulting from improper use.

Ensure that plastic bags, packaging, etc. are properly disposed of and are not in the reach of babies and young children. Choking hazard! Ensure that children do not detach any small parts from the cable. They could swallow the pieces and choke! Never let children use electrical devices unattended.

For the transport and protective packaging, environmentally friendly materials have been chosen that can be supplied to normal recycling. Ensure that plastic bags, packaging, etc. are properly disposed of. Do not just dispose of these materials with your normal household waste, but make sure that they are collected for recycling. Please follow the notes and markings on the packaging.

This product is subject to the European Waste Electrical and Electronic Equipment Directive (WEEE) in its currently valid version. Do not dispose of your old device with your normal household waste, but dispose of this product through an approved waste disposal firm or through your local waste facility. Comply with the rules and regulations that apply in your country. If in doubt, consult your local waste disposal facility.
